

## Bethel Ministries International

Bethel Ministries International is an inter-denominational 501c3 wheelchair ministry that provides mobility to the disabled in Guatemala. Also, through home construction, food distribution, and educational sponsorship, our ministry exists to advance a powerful transformation in the whole of society, one life at a time.

### PROVIDING MOBILITY - GIVING HOPE

BMI aggressively seeks to rescue the often forgotten people with disabilities hidden away in homes and institutions. We distribute **over 1800 refurbished wheelchairs every year** through monthly distribution activities. BMI prioritizes proper seating with the necessary supporting systems for adults and severely disabled children, and the required follow up care. We place a lot of value in ongoing relationships!

### PREFABRICATED HOMES PROJECT

The heart of God is to care for those that are unable to provide or care for themselves. It is in this that we have sought to do; taking care of orphans and people that are physically less able to provide for themselves. At this time, God has opened a door to help especially widows and people with disabilities with new homes. To people in more affluent

areas, these are very small houses, but to a widow who is living in a cornstalk home, or to a single mother whose family is sleeping on the dirt, this provision is indeed a God-send. These homes, equipped with triple bunk bed and energy efficient wood stoves, only cost \$3,720 to build, and are durable and will keep families safe and cozy even during the rainy season.

### HOME VISITATIONS

Jesus commanded us to, "Go therefore and make disciples of all the nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit." Another important aspect of our ministry is home visitations. We work closely with many different social workers and pastors in different communities. They inform us of who is in need in their community, and we visit them in their homes accompanied with food, new clothes, and the Gospel. These visits are very intimate and it gives us an opportunity to meet people where they are at.

## EDUCATION

An education for children in Guatemala can be the difference in breaking the extreme poverty cycles. We take great pride in helping the next generation in bettering themselves. We also seek out children with special needs to help them get what they need to succeed. An education for people with disabilities is a rare thing for Guatemalans. Now through sponsorship, children are provided with a solid education. Where the children with disabilities are accepted in regular schools, we help them with their supplies and the equipment they need to make the venture a success. In many cases though, the children must study at home or in an orphanage where they live. We are happy to say that with the help of tutors these children are also receiving a good education.

## SHORT TERM MISSIONS TEAMS

You as a short-term missionary are vital for the work here at Bethel Ministries International. More than 80% of what we are able to accomplish in helping those around us is done by you! It is the way we are set up, it is the way we work - and it works well, thanks to everyone working together. We have seen so many lives changed; those whom we serve on the field, and those who come to serve.
